

# FALCON VENEER

## POPLAR VENEER SPECIFICATION

Veneers are manufactured in different grades as A, B C and D. Veneer grading is based primarily upon the appearance of the finished product. The specification in the table below is for Mix grade Poplar veneers and refers only for A, B and C grade. The data in this sheet is made for the veneers with dimensions 2600x1300 mm and thickness 2 mm.

Poplar specification data sheet

Veneer Characteristics			Veneer Grade		
Feature	Thickness (mm)	Sizes (mm)	A	B	C
